

Lesson: **Studying abroad** (Learner's document)

Activity 1

In groups of 3 or 4 people and according to this table, discuss about the similarities and differences between the Spanish and the Irish educational systems. Then, discuss them with the rest of the class.

Similarities & differences:

Activity 2

Try to locate which qualification or title you would presumably have in the Irish educational system.

According to this supposed qualification, think how you could certify it in Ireland in order to continue your studies. After you discuss it in your group, brainstorm these ideas to the whole class.

Notes:

Activity 3

On the Internet, confirm if you were right about your studies equivalences and certifications.

Look for opportunities to continue your studies in Ireland, and talk about them to the rest of the class.

Notes:

Activity 4

If you could be interested in continuing your training in any other European country, follow the same process. Investigate about the educational system, the equivalence of your certifications and titles, and which opportunities of continuing your studies you would have there.

Notes:
